Jan,

Would this be OK?

Thank you,

Andy

**Importance:** High

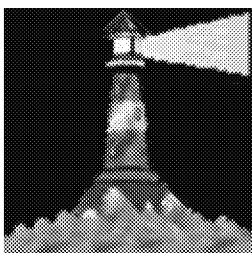

Andrew, I am not able to upload the attached article that you sent in your email. There must be no journal logos on the final version of the article. Please have the journal logo and information removed.

Once I get that pdf file from you I will upload it to the record.

Tom—I will send to you the article that Andrew will be sending to me. I am asking for your permission to upload it to the record and have the final approval done on this record.

May I make a suggestion, since this is a high profile article I would like to change the level 5 approver from Andrews's BC to you, pls let me know if I may do this.

Regards

**Subject:** RE: Clearance History for ORD-016436

Jan,

I've attached the peer reviewer comments and the authors' responses along with the semi-final version of the paper.

It only has a DIO number so far because it is still in the "just accepted" part of the website.

Please let me know if we need anything else.

Thank you,

Andy

**Subject:** RE: Clearance History for ORD-016436

Tom,

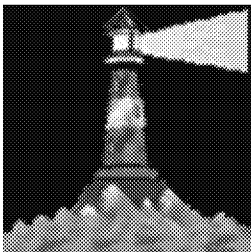

The reason why this record is in my hands is because I am waiting for A. Lindstrom to send to me the final version of the article along with the journal comments. I informed A. Lindstrom on June 22 that he may send the article to the journal for acceptance. I have not heard back from him yet and/or if the journal accepted the article. Just waiting for Lindstrom to send me the files so we may move this forward for the final approval. I am including him in this email as a reminder that we need to finish up this record. The latest file in the record is the revised article per Andrew Gillespie.

At this point, I am waiting for the journal comments and for the final version of the article after he has addressed the journal comments.

Below are the comments in the record; when this record was created at that time I was not informed that all publications need to approved as the TIM by Breanne so that is why the record is in my hands.

**Subject:** Clearance History for ORD-016436

Jan,

Can you give me the history for the clearance of ORD-016436? I can't open it in STICS. I asked Breanne, but for some reason you are listed as the TIM instead of her. Basically, I was wondering if I could see the comments (if any) left by the NERL management reviewers along the way.

Thanks,

Tom
